

Background

Mission: Pan-African coalition: Advancing disaster risk reduction (DRR) through collaboration.

Focus: Strengthen resilience via research, policy innovation, capacity-building, and cross-sector partnerships.

Objects

- Scale localized DRR solutions.
- Enhance early warning systems & climate adaptation.
- Mainstream DRR into national development agendas.

Expectation from a future partner

- Technical support, funding, technology transfer, and joint advocacy.
- Shared commitment to SDGs, Sendai Framework, & equitable African resilience.
- Co-design programs with African stakeholders.
- Mobilize resources for scalable initiatives.
- Amplify grassroots innovations globally.

Seeds and Needs

Seeds (What We Offer)

- Network: 50+ institutes, governments, and NGOs across Africa.
- Local Insights: Proven frameworks (e.g., [Example Initiative]), on-the-ground expertise.
- Policy Access: Partnerships with AU, UNDRR, and regional bodies.

Needs (What We Seek)

- Funding: Grants for pilot projects & infrastructure.
- Technology: AI/remote sensing tools for risk mapping.
- Platforms: Knowledge-exchange hubs & training programs.
- Advocacy: Global allies to elevate African DRR priorities.
