General guidelines for poster presentation:

- All posters are along the lines of the proposed conference theme and panel discussion topics of the 7th Global Summit of GADRI.
- All contributions are relevant to policy makers and directed towards global disaster risk assessment – not only hazards – dimensions to assess the risks.
- Posters should contribute to the targets of the Science and Technology Roadmap for the implementation of the priority areas of the Sendai Framework Agenda; and/or the COP agenda. Make sure to indicate the Sendai Framework Priority Area/s related to your research work.
- Posters could be reporting on research challenges, contributions, achievements, etc. It is important to framework the data in terms of - whether it is global, national, or local. These dimensions are important.
- With hazards, it is important to mention whether it is technological, natural or others aspects, is it on exposure, or vulnerability, or hazards. This will be a good way to summarize the current status of science and research targets.
- Selected abstracts will have the opportunity to publish the paper in the Proceedings of the 7th Global Summit of GADRI.
- Please use the Springer house styles for preparing the abstract and the full paper - <https://www.springer.com/gp/authors-editors/book-authors-editors/your-publication-journey/manuscript-preparation>
