

GADRI Membership

Application Form

The Global Alliance of Disaster Research Institutes (GADRI) was established in March 2015 to support the implementation of the Sendai Framework for Disaster Risk Reduction 2015 to 2030 (SFDRR) and the work of the Scientific and Technical Advisory Group of the United Nations Office for Disaster Risk Reduction (UNISDR) at the same time the Third UN World Conference on Disaster Risk Reduction was held in Sendai, Japan.

GADRI membership aims at institutes with a goal to contribute to the advancement of disaster research, and those working in the field of disaster risk reduction.

GADRI expectations from member institutions are:

- to identify the status of the current research gaps in their area of research to achieve disaster risk reduction in the real world; and
- to establish a road map to reduce the identified gaps.

Institutes interested in joining GADRI should complete the membership application form with institute data, and submit it to the GADRI Secretariat (secretariat-gadri@dpri.kyoto-u.ac.jp).
